OBJECTIVE

Information Systems graduate with 3.5 years of experience in Web Development and Business Intelligence, bringing strong analytical thinking and problem-solving capabilities. With a solid focus on backend system development and data-driven solutions, experienced in building, testing, and deploying web-based applications from scratch. Possesses a strong foundation in Applied Statistics and Informatics Logic, with effective collaboration and communication of technical ideas. Seeking opportunities in Business Intelligence and Information Systems Development to support business growth through reliable and scalable technology solutions.

WORK EXPERIENCE

PUSAT DATA TEKNOLOGI INFORMASI – UNTAR | ASSISTANT PROGRAMMER

JANUARY 2025 - DECEMBER 2025

- Developed a dashboard website using ASP.NET for analyzing university questionnaire data, integrating K-Means Clustering to identify respondent behavior patterns across multiple evaluation indicators.
- Created data visualizations and KPI dashboards to improve service quality evaluation, while developing program manual books for staff and students at Tarumanagara University.
- Project Demo (Video): youtu.be/27eGnk9TXO4

BUSINESS INTELLIGENCE PROJECT | INFORMATION SYSTEMS STUDENT

JUNE 2025 - DECEMBER 2025

- Conducted a work-based Business Intelligence project using clustering algorithms on higher education questionnaire data from PUSDATIN UNTAR to identify patterns and stakeholder groupings.
- Utilized Google Colab with Python libraries such as Pandas, NumPy, and Scikit-learn to preprocess, analyze, and visualize institutional data for decision-support and academic research purposes.
- Project Preview (Journal): Archives | Jurnal Ilmu Komputer dan Sistem Informasi

OTHER EXPERIENCE

MOD GAMES & APPS PROVIDER | WEBSITE MANAGER

JANUARY 2026 - PRESENT

- Manage website content, layout, and download access to ensure usability and performance.
- Maintain smooth user experience through regular updates and fulfillment of user requests for specific MOD applications.
- Website Preview (GitHub): horriblescare.github.io/Scarecrow-Studio/

DIGITAL PRODUCTS SELLER | CONTENT PROMOTER

APRIL 2025 - PRESENT

- Sell digital products such as manga e-books and retro games through Instagram to reach a niche audience.
- Built a loyal customer base by consistently showcasing niche digital collections for fans of Japanese manga and vintage gaming culture.
- Products Preview (Lynk.id): lynk.id/greatfenrirwolfbooks

CERTIFICATIONS

- **EFL FINAL LEVEL COMPLETION CERTIFICATE (KUMON) | OCTOBER 2015**
- **ERP WORKSHOP CERTIFICATE | OCTOBER 2024**

EDUCATION

TARUMANAGARA UNIVERSITY | MAJORING IN INFORMATION SYSTEMS

(GPA: 3.52 / 4.00)

AUGUST 2022 - AUGUST 2026

Bachelor's Thesis: "Development of a Dashboard for Analyzing Questionnaire Data on Vision, Satisfaction, Teaching, Graduate Users in Universities"

SKILLS AND EXPERTISE
